- Academy of Technology, Adisaptagram
Masters in Computer Application
2022-present

About Me

Myself Akash Pal. I came from a Mathematics background. From Childhood I was very much interested in both Maths and Computer. Both of my dreams are fulfilled now. Being a Mathematics student, it helps me to give me boost for problem solving ability. I am an intermediate coder proficient in Python and Java, as well as skilled in HTML, CSS, and JavaScript. With a keen interest in web development, I have successfully created responsive e-commerce and portfolio websites. Additionally, I have a good understanding of data structures, allowing me to solve problems efficiently. I possess a rapid learning ability, enabling me to quickly grasp new technologies, and I have a strong desire to continually expand my knowledge and skills.

Professional Experience

Neurologic AI/ML Intern | Manual Tester

Apr 2023-present

Neurologic is an AI/ML start-up company. There is a model for image processing and it's run under the Python coding language. I did this internship as a part-time work from home. My role was a manual tester. I have used my Advanced Excel skills and little bit of python to complete my task. I was awarded for Employee of the month and was selected for developer role.

Projects

- E-Commerce Website (Responsive) using CSS, Html, JavaScript, NodeJS, ExpressJS
- Personal Portfolio Website (Responsive) using CSS, Html, JavaScript, NodeJS

Achievements

2023	Python 5* in HackerRank
2023	Java 4* in HackerRank
